MOUNT BATH FAUCETS ON AN ARTFUL BACKSPLASH

This bathroom faucet could have been mounted on the wall or on standard subway tile. Instead, the addition of a slab of marble with a pretty furniture-like silhouette gives the space designer edge.

Design, Suzie Richard and Suzie Bergeron.

5

VARY YOUR METALS

Using the same finish on all of your fixtures, from faucets, sconces and hardware to shower framing, can look a little expected. Incorporating two or more metals can really shake up a space.

A good rule of thumb is to make sure that at least one metal is repeated in multiple areas, as is done with the black accents in this bath.

Design, Mélanie Chierrier and Laurence Pons Lavigne.

6

USE MORE THAN ONE TILE

Three different surface materials combine to make this shower enclosure a knockout. White terrazzo-like slabs add visual lightness and play nicely off the intricacy of the oblong wall tile, while the black seat grounds the space.

Design, Jean Stéphane Beauchamp.

WRAP THE WALLS IN GRAPHIC PAPER

If you have your eye on a bold wallpaper but worry that you might tire of the pattern, use it in a powder room. These three spaces prove that a little goes a long way.

ABSTRACT BRUSHSTROKES bring an energetic vibe to this playful powder room. Classic and understated fixtures keep the small space from being overwhelmed by the print.

Design, Jaclyn Peters.

A SINGLE FEATURE WALL IN LUSCIOUS FLORAL WALLPAPER

paired with pale pink walls and a contemporary white sink shows the power of even a small dose of pattern.

Design, Jean Stéphane Beauchamp.

A BURST OF LARGE-SCALE BLOOMS in calming shades of blue, sage and grey creates a romantic backdrop for this tidy chrome-based vanity.

Design, Nyla Free.
