LUMINAIRE AUTHENTIK, MONTREAL

Flip through any H&H magazine and you're likely to find a light fixture by Luminaire Authentik. Maude Rondeau has grown her Bromont, Que., company from a small, three-person shop to an operation with multiple showrooms and has a plan to expand across Canada and into the U.S. **WHY NOW:** This brand's handmade contemporary lighting is a favourite of designers and architects across Canada. One of its many charms is the dozens of colours most styles of lamps are available in, with more shades released seasonally.
